

Caprari's sustainability award

21 April 2010

Caprari has achieved the 'CSR 2010 Award' of the Modena's Province for its 'Sustainability Report'.

Corporate Social Responsibility (CSR) is a new approach in company management. It aims to make innovation environmentally, socially and economically sustainable and [Caprari](#) considers pursuing this objective a fundamental lever for growing its business.

The Sustainability Report measures and records the environmental, social and economic performance of an enterprise. In this report, Caprari aims to provide all of its stakeholders with a full, detailed and transparent description of the company: its business, its organization and the mission that guides its growth and development targets.

Caprari's renewed E series: a range of 6in - 22in electric submersible pumps of up to 370 kW in number of different versions
