**DRYWET
SYSTEM**
Caprari International Patent

**K+ NON
STOP**

K+ **ENERGY**

RANGE EXTENSION

**POWER UP
TO 180kW**

**EFFICIENCY
>80%**

50 Hz

60 Hz

DN40 → DN350

IDEAL FOR

WASTEWATER TRANSPORT

WASTEWATER TREATMENT

INDUSTRY

STORMWATER

WHY CHOOSE K+ ENERGY

1 IE3 ELECTRICAL EFFICIENCY CLASS

- High motor efficiency
- Reduced energy costs

2 HIGH-EFFICIENCY HYDRAULICS

- Efficiency above 80%
- Optimized hydraulic profiles

International Patent

3 OIL COOLING SYSTEM

- S1 operation in dry chamber
- Maximum versatility of use

Exclusive

4 ANTI-CLOGGING SYSTEM

- The widest free passages in the market
- Maximum operational safety

International Patent

5 CONDUCTIVITY PROBE IN OIL CHAMBER

- Standard on all models even for ATEX version
- Motor protection: the alarm signal is sent to the panel in case of failure of the first mechanical seal
